

# Connecting patients to the best possible care

Reduce cancellations · See more patients  
Enhance quality · Intervene early · Reduce costs

## Digitising your clinical and administrative patient pathways

- ✓ Personify Care is easy to use software for healthcare providers
- ✓ Plug-in your own clinical protocols and pathways
- ✓ Screen pre-admission clinical risks and educate patients for post-treatment recovery
- ✓ Deliver care without manually processing forms and time consuming phone calls

## About Personify Care

Personify Care is a mobile platform that can be configured by staff to track patient pre-admission and/or post-discharge pathways and produces patient response rates of over 80%.

Patients get a secure checklist on their mobile so that they are better prepared before surgery and have a better recovery post-discharge. Nursing staff get visibility via a dashboard of the patients that require follow-up based on their progress in the previous 24 hours against existing clinical criteria.

Personify Care is an Australian company established in 2014 with corporate headquarters based in Adelaide, South Australia. The company has customers and operations in Australia, New Zealand and the United States.

## Security and privacy a given

Personify Care uses best-in-class security processes and meets all requirements of the Australian Privacy Principles with patient data for Australian patients being stored securely in Australia.

## Setup, tested and ready in under 4 weeks

- ✓ Integrate with HealthDirect for seamless Telehealth Pathways before and after consult
- ✓ Store patient data in existing patient record systems
- ✓ No need for special projects, hardware or changes to your workflows
- ✓ Technology that learns from patient interactions to deliver patient response rates of over 86%

## Demonstrated results with leading hospitals

- ✓ 68% reduction in costs of managing patients
- ✓ Less time on administration, more time spent on patient care
- ✓ 98% of patients would recommend service to friends and family
